

If It Will Help
Alberta the
Bulletin Is for It

VOL. XVII, No. 77.

EDMONTON, ALBERTA.—Alberta's Oldest Newspaper.—TUESDAY, AUGUST 31, 1926

FINAL
EDITION

PRICE FIVE CENTS

From the Vancouver star
"Miss Lucker, the only survivor,
wrapped herself in her blanket
and hurried into the snow."
We object to the use of "Coke"
being alone in such a connection.

Old-timers can remember
when there were no more
accidents reported on Monday
than on any other day.

Important news from the
Montreal Gazette: "The grand
scheme reached its final point
in disaster in the early
morning of Monday." Who in
doubt consult the dictionary.

WE SUSPECT THAT "LOVE"
OF FOLKS GO TO THE
SIDE NOT MUCH FOR BEA
RATING AS TO THE
LOVE.

One way to put a stop to
colored stockings would be to
pinch 'em for having no visible
means of support.

After investigating some of
the modern dances, our favorite
anthropologist has decided
that man descended from the
kangaroo, not the ape.

Summer's last day of time
for the modern woman. She
never has anything particular
on.

Masquerade, the famous
musician, says he can think of no
worse instrument than the
saxophone. Nobody wants him
to.

A British scientist says insects
must love "The Monstrous"
never so happy as when he's
necking.

A PARIS MAN SOLD HIS
WIFE TO A NEIGHBOR FOR
FRANCE. A HOUSE SELLER
MAN CAN SELL ANYTHING.

Scientists are said to have
discovered a way to extract
sugar from sawdust. So some
of those patent breakfast
foods will be more palatable
than ever.

Some of the plates are holding
annual egg days. Canada
will try out the idea Sep-
tember 14.

"Cleric Says World Isn't Going
to the Devil," a headline says
Well, what else was it?

A NEW ENCYCLOPEDIA
is being
How glad the cry "Spring in the
air."

The trees are all in bud.
And we go hiking here and there,
Up to our knees in mud.
The gentle rain turns everything
To a greenish brown.
Our garden bushes nod.
And all around the trees sing
A lot of wretched hum.

The day has been bright.
The sun has shined around at night.
And all the stars are shining.
And all the stars are shining.
And all the stars are shining.

According to a girl's note,
"I'm going to be a nurse."
McKay.

DAILY MONOCOSCOPE
Children born today will
be called "The New World."
This is a unique
prediction by Plutarch
predictor of stars and planets
in Alberta.

HOUSEHOLD HINTS
The modern housewife is not
entirely for playing cricket
on the lawn. It is better to
play of sheaf if you take off
your shoes before you enter
the house. It is better to
wash your face with cold
water than with hot water.
It is better to drink water
than to drink beer.

SCHOOL OPENS WEDNESDAY FOR 15,000 KIDDIES

Vacation Ends Officially To-
day—Big Enrollment
Expected

Nearly fifteen thousand chil-
dren will start the new school
year on Wednesday morning.
In the public and sepa-
rate schools here Wednesday
morning to about 300 institu-
tions.

"Vacation ends officially today
and summer tans soon will give
way to the pale cast of intellect."
Favorite pupils will be in some
of the schools.

Nearly fifteen thousand chil-
dren will start the new school
year on Wednesday morning.
In the public and sepa-
rate schools here Wednesday
morning to about 300 institu-
tions.

6 LOSE LIVES, MANY INJURED IN EARTHQUAKE

Associated Press
LONDON, Aug. 31.—Reuters
despatch from Horta, in the Azores,
says that all persons were killed
in the earthquake there today and
many were injured. From Paris
reports come from the cable cable
panies that many houses were
destroyed and damaged, but the cable
was uninjured and there were no
casualties.

HORTA, Azores, Aug. 31.—Several
minor shocks have been felt here
since the first quake this morning.
The village of Horta, in the Azores,
says that all persons were killed
in the earthquake there today and
many were injured. From Paris
reports come from the cable cable
panies that many houses were
destroyed and damaged, but the cable
was uninjured and there were no
casualties.

MEXICO CITY, Aug. 31.—A violent
earthquake has occurred in the
city of Tehuacan, and a large part
of the city has been destroyed.
Many houses, considered earth-
quake proof, fell to the ground.
The people are unharmed and no
one is preparing to spend the
night in the open.

1524 Applications Heard in Edmonton Revision Courts

Closing Hours Set Steady
Line-Up of Voters Seeking
Franchise

Approximately 1524 applications
were dealt with by the East and
West Edmonton courts for revision
of the franchise on September 14.
The courts will be open from 10
a.m. to 6 p.m. on Monday and
Tuesday.

In the East court, 744 applica-
tions were dealt with and 248 names
were added to the list of voters.
In the West court, 780 applica-
tions were dealt with and 276 names
were added to the list of voters.

HOUSEHOLD HINTS
The modern housewife is not
entirely for playing cricket
on the lawn. It is better to
play of sheaf if you take off
your shoes before you enter
the house. It is better to
wash your face with cold
water than with hot water.

Charles Woodward Exposes Take Indifference to West

ELECTION AGENT
FUNNIEST MAN,
SAYS WITNESS

Canadian voters must agree, but a group of judges, at a Park court
decided that this little boy was the "most beautiful child." He is
Philippe Dubois, son of a wealthy Parisian manufacturer.

Witnesses at the Athabasca elec-
tion court have said that they
were "amused" by the behavior
of the witness, Mr. D. R. O.
The witness, Mr. D. R. O., was
asked to give evidence in the
case of the witness, Mr. D. R. O.
The witness, Mr. D. R. O., was
asked to give evidence in the
case of the witness, Mr. D. R. O.

13 IS LUCKY PEP NUMBER

Some people think 13 unlucky, but
Mr. Gellatly, of 1325 13th street
west, says that 13 is a lucky
number.

Mr. Gellatly, who works for the J.
J. McLaughlin bottling works, was
asked to give evidence in the
case of the witness, Mr. D. R. O.
The witness, Mr. D. R. O., was
asked to give evidence in the
case of the witness, Mr. D. R. O.

U. S. HARVEST HELP IS SOUGHT

Because the East has fallen down
on the supply of harvesters for the
Western crop, the U. S. has been
asked to supply harvesters for the
Western crop.

Mr. Gellatly, who works for the J.
J. McLaughlin bottling works, was
asked to give evidence in the
case of the witness, Mr. D. R. O.

Youth Kills Himself For Killing Girl

Associated Press
CALUMET, Mich., Aug. 31.—
Arthur Lawrence, 15, voluntarily
said his life for what he
thought was incurable can-
cer on his part.

The boy went to the home of
his mother, farm near Midway,
and shot himself with the shot-
gun which a moment before had
killed his 16-year-old sister, Be-
nnett.

City Engineer Gets Subway Estimates

Estimates of materials needed for
the short span of the proposed 1095
street subway under the Canadian
National railway tracks were received
in a telegram from the bridge build-
ing department of the railway at
Winnipeg by R. J. Gibb, acting city
engineer this morning.

DEATH TOLL IN SHIPWRECK IS TWO HUNDRED

Nearly Every Family in Kronstadt Suffers Through Marine Tragedy

Associated Press
KRONSTADT, Russia, Aug. 31.—Estimates of the loss of life in the sinking of the steamer Burevestnik continue to grow. It is now reported that more than 300 of the 563 passengers aboard were drowned in the foundering of the craft off the exit of the ship canal on Sunday night. This little island fortress is plunged into deep sorrow as many of the victims were residents. They were mostly workmen and their families returning from a holiday in Leningrad. Nearly a family on this island escaped a loss. Up to noon today more than 100 bodies had been extricated from the sunken wreck.

Sinks Rapidly

The expedition steamer, leaving Leningrad, had just entered from the ship canal a thick fog when a German freighter loomed up out of the dark. To avoid collision, the Russian vessel was turned sharply and crashed into a stone pier, splitting a great hole in her bow. She sank in less than 15 minutes and in the fog and dark the work of rescue was greatly hampered. The regular captain was not on board, and the first officer, who was in charge, saved himself, but his wife and two children perished. They were in a locked cabin, the key to which the officer carried in his pocket. Investigating shows that the Burevestnik had only one lifeboat and 175 floats for 563 passengers.

Panic on Ship

When the vessel crashed into the stone pier, sailors rushed below, crying "There is no danger." Most of the passengers, then, returned to their cabins where they were located when the inextinguishable water ever whelmed the doomed craft. In the wild panic that ensued passengers clambered frantically on the slender mast of the steamer, which collapsed under their weight. A great mob rushed for the single boat that the German freighter sent to the rescue and it sank under the numbers that jumped into it. The government has appointed two commissions to investigate the disaster.

Meighen Speaks for Fellow Candidates

STURDEY, Ont., Aug. 31.—Returning to the Ontario campaign yesterday, Francis Arthur Meighen spoke in support of the candidates of the Conservative party in the riding of St. Lawrence. He was accompanied by Dr. Armstrong, Dr. Armstrong to South Temiskaming and Fred Laberge in Nipissing. No mention was made of the constitutional issue.

WRECKAGE DEAD

NEW YORK, Aug. 31.—Brigadier-General William Foster, of England, retired lawyer, author and artist, and veteran of the civil war, in which he was wounded, died yesterday at his home here after a long illness.

REVOLTS

This is Admiral Countdoris, of Greece, who was one of the leaders in the bloodless revolution that set President Pangalos over the king and placed the admiral at the head of the government. He promises to hold a nationwide election as soon as order has been fully restored, and is expected to become Greece's new president.

Flash Will Blind the Night Marauder and the Film Identify Him

Associated Press
ROCHESTER, N.Y., Aug. 31.—A new camera film developed for use by the air service and which has the power to penetrate the land has been used to identify a burglar. The camera, which is the invention of John E. Seibold, of La Salle, Ill., may be concealed anywhere in a dark, portable, or office building for the purpose of photographing burglar movements by day or burglary operating by night. In the day time

RUM RUNNERS OF EAST USE WAR TACTICS

Associated Press
ST. ALBANS, Vt., Aug. 31.—A new phase of the government's war against rum runners has opened on the Vermont-New Hampshire Canadian border. The newest bottle will be found out on 12 highway along a 14 mile front by 40 border patrolmen equipped by 100 customs men and a fleet of four patrol boats on Lake Champlain. The patrol, now operating 45 automobiles, all seized from rum runners, is more than just supporting from the number of cars confiscated and rum collected. Increased vigilance has had a result. The rum runner has been practically everywhere possible means is resorted to by the border patrol to bring in their loads. Smoke screens have been used to cover the trucks, and highways and conveyance range from back roads to airplanes. The average rum car is fitted with a floor bottom, sides or panels and recently the practice of carrying liquor in spare tires was discovered. Automobile liquor trains run in groups of two or more cars. The train runs a pilot car 300 yards ahead. If the leader is stopped the other cars and escape. Many trains also have a rear-guard car that is to be swung across the road and abandoned should an attack develop from that quarter. The average rum runner would not risk and tobacco on his return trip to Canada.

Mackenzie King Talks To Overflow Meeting

WINDSOR, Aug. 31.—Because one hall would not hold the great crowd that gathered to hear Mr. H. H. Mackenzie King here last night, he addressed two meetings. Mr. King pointed out that both coal and steel industries had been the creation of Liberal governments.

QUARREL FATAL

HAMILTON, Aug. 31.—Albert Albertson, 31, is dead, and James W. W. is held on a charge of manslaughter in connection with the death of Albertson. The charge was brought on application of the coroner.

The charge of being an inmate of a house preferred against Albertson, Nancy Glushko being Magistrate Monday morning.

Fire bursted a large hole in the floor of the residence of W. H. Donlan, when a table lamp was upset at 1:45 p.m. Wednesday, spilling kerosene over the floor.

His wooden leg saved Thomas Rea from going to jail when he appeared before Magistrate Primrose Tuesday for sentence on a charge of theft. The accused was fined \$5 and costs or 20 days.

Claim for \$157 damaged as a result of a collision on the Wye road, 15 miles east of this city has been paid in full by the Wye road company under McRimmond's agreement.

There will be no formal speeches at the regular luncheon of the Gypsy Club at the Hotel Macdonald today, the hour being given over to a final discussion of plans for the carnival to be held next week.

Annual Decoration day will be held next Sunday at the soldiers' and sailors' memorial cemetery under the auspices of the Edmonton chapter of the British Empire.

Det. Thompson, alias Murphy, was arrested in Edmonton Monday by Detective Allan and returned on information received from Saskatoon charging him with breaking and entering. Saskatoon police are sending an escort.

Shareholders of the Edmonton Exhibition association will meet at the Civic block at 3:30 p.m. to ratify a clause in the constitution providing that directors be elected for two years, six to be chosen each year. Directors will meet before the stockholders convene.

Charged with the theft of one watch, one gold chain, and one diamond ring, valued at \$150, from the farm house of Henry Walter at Haddock, Ont., on Aug. 17, Walter Hoffman was arrested by Magistrate J. C. Symes of Haddock, and committed to jail to await trial on a charge of theft of a watch and a gold chain.

Edward Gamber, D. H. O. at Pelican pool, near Pelican Rapids, admitted that while the pool was open, 31 near for Crown about 13 of the 14 were in the pool and had voted. He himself had put the ballots in.

"Who suggested that to you?" asked Mr. Symes.
"Nobody."
"Why did you do it?" persisted counsel.
Gamber grew confidential.

"Well, you see it was this way. At the 121st federal election there was a fellow called McIntosh, a trader of Chalmers, who was running the election for H. A. Mackie K. C. of Edmonton, the Conservative candidate, who lost to D. F. Keirler. This fellow put in 44 votes at the Pelican pool for Mackie, so I thought I would get even with him by putting some ballots in for myself."

"You didn't do quite as well as McIntosh," commented Tipton.
"No, we didn't," admitted Gamber ruefully, "and the worst of it is the fellow McIntosh is around again this year."

Another feature of Monday afternoon's hearing here was the denial of evidence of previous witnesses by J. A. Himmelfarb, D. H. O. at the Haddock rural pool. Frank Palmer, who was clerk at the pool, had previously stated that Mayor F. D. Hame, J. P. and postmaster at Haddock, had gone to the pool on election day and demanded a ballot for Mrs. Hame, and had marked it and put it in the box. Himmelfarb denied this and said Hame had never asked for any ballot and had never asked witness to put in a ballot for anyone.

Bull's Eyes

Miss Samson was charged with the theft of a bicycle, and had her case continued to Wednesday.

George Hurford, for driving an auto while intoxicated, was sentenced to 15 days in jail by Magistrate Primrose Tuesday morning.

Two teen aged lads were arrested Monday, charged with theft of two revolvers from the shop of Joe Moore, 255-109th street.

Walter McCutcheon, charged with reduction under promise of marriage, was remanded for trial at preliminary hearing before Magistrate Primrose Tuesday morning.

The charge of being an inmate of a house preferred against Albertson, Nancy Glushko being Magistrate Monday morning.

Fire bursted a large hole in the floor of the residence of W. H. Donlan, when a table lamp was upset at 1:45 p.m. Wednesday, spilling kerosene over the floor.

His wooden leg saved Thomas Rea from going to jail when he appeared before Magistrate Primrose Tuesday for sentence on a charge of theft. The accused was fined \$5 and costs or 20 days.

Claim for \$157 damaged as a result of a collision on the Wye road, 15 miles east of this city has been paid in full by the Wye road company under McRimmond's agreement.

There will be no formal speeches at the regular luncheon of the Gypsy Club at the Hotel Macdonald today, the hour being given over to a final discussion of plans for the carnival to be held next week.

Annual Decoration day will be held next Sunday at the soldiers' and sailors' memorial cemetery under the auspices of the Edmonton chapter of the British Empire.

Det. Thompson, alias Murphy, was arrested in Edmonton Monday by Detective Allan and returned on information received from Saskatoon charging him with breaking and entering. Saskatoon police are sending an escort.

Shareholders of the Edmonton Exhibition association will meet at the Civic block at 3:30 p.m. to ratify a clause in the constitution providing that directors be elected for two years, six to be chosen each year. Directors will meet before the stockholders convene.

Charged with the theft of one watch, one gold chain, and one diamond ring, valued at \$150, from the farm house of Henry Walter at Haddock, Ont., on Aug. 17, Walter Hoffman was arrested by Magistrate J. C. Symes of Haddock, and committed to jail to await trial on a charge of theft of a watch and a gold chain.

Another feature of Monday afternoon's hearing here was the denial of evidence of previous witnesses by J. A. Himmelfarb, D. H. O. at the Haddock rural pool. Frank Palmer, who was clerk at the pool, had previously stated that Mayor F. D. Hame, J. P. and postmaster at Haddock, had gone to the pool on election day and demanded a ballot for Mrs. Hame, and had marked it and put it in the box. Himmelfarb denied this and said Hame had never asked for any ballot and had never asked witness to put in a ballot for anyone.

FAMOUS PONY GYRO PRIZE

Some lucky Edmonton boy or girl will shortly become the owner of the famous pony, Kewpie Doll, prize winner at several horse shows, which will be raffied during the Gypsy Carnival next week. The owner of the pony is unable to find a home for the pony, a cash offer of \$40 will be given as a substitute. This was one of the prizes in the month made at the weekly luncheon of the Gypsy Club at the Hotel Macdonald on Tuesday. It was also stated that children's parade and circus will be held Saturday afternoon, the kiddie meeting at 10:15 street and Jasper avenue at 1:15 p.m. Grandstand at Midway street and avenue to 10:15 street, where they will be taken in gyro members' circus will be held. This event has no connection with the forthcoming carnival, and will be entirely free to all children and adults.

MORE ABOUT

CAR ON FIRE

CONTINUED FROM PAGE ONE

power plant. With a blinding flash lights all over the city were extinguished, and on certain roads had to be made before the circuit was thrown in again a considerable delay in setting lights again followed. In other sections where transformers were burned out the lights were not turned on for a longer period, the rain meantime putting down in solid sheets.

At McClellan school where Mayor Hinchford was talking when the lights went out, the Mayor said the tension by declaring that he "couldn't understand that. Every word I've said is the truth." A laugh followed and the Mayor went on talking in the darkness until lights were finally restored some half hour later.

During the cloudburst which accompanied the electrical disturbance 1.5 inches of rain fell in the city, and from shortly after 8 o'clock Monday night until noon today the total precipitation was 1.24 inches. Electricians at the power plant stated that last night's electrical storm was the worst experienced in years and that the lightning occurred at a far wider area than usual.

The storm pelted in the north-west and broke over the city at about 8 o'clock. The full fury was experienced however between 8:30 and 10 when the sky was lit for seconds at a time by blinding sheets of lightning and rain fell in tropical torrents. Thunder was also heard more frequently than usual.

Although several narrow escapes were reported no fatalities occurred and no material damage was reported as a result of the storm. Weather forecasts for today are for a continuance of the local showers and unsettled weather, but Wednesday's forecast is "mostly fair."

There will be no formal speeches at the regular luncheon of the Gypsy Club at the Hotel Macdonald today, the hour being given over to a final discussion of plans for the carnival to be held next week.

Annual Decoration day will be held next Sunday at the soldiers' and sailors' memorial cemetery under the auspices of the Edmonton chapter of the British Empire.

A SIMPLE RECORD OF FACT

OF INTEREST TO THE MOTORISTS OF CANADA

ON February 15th—just six months ago—we raised the curtain on a merchandising success that has no counterpart in the annals of modern business. It was then that we revealed the record of our four-year search for the ideal motor lubricant, and announced the culmination of that search in the development of a new and wonderful refining process. At once the attention of the motoring world was focussed upon Marvelube Motor Oil, by reason of the positive assurances we gave to trade and public that it would prove a revelation in lubricating efficiency.

On April 20th, Marvelube went on sale across Canada. On that very day it became apparent that our high claims had awakened the interest of car owners to an extent never achieved for any other oil product. That first day our Dealers and Service Stations set new records in crank-case fillings for customers anxious to get the lubrication benefits which we had told them Marvelube would ensure.

By May 1st, Marvelube sales had attained such proportions as to reveal a most gratifying readiness on the part of the Motoring Public to accept our claims at their full face value. From every one of our twelve Sales Divisions came reports of a demand so vastly in excess of our most optimistic anticipations as to constitute evidence of a public confidence seldom vouchsafed to any commercial institution.

By June 1st—to meet this unforeseen demand—we had doubled our plant capacity.

And yet today, in spite of intensive efforts to place adequate stocks at all our Sales Outlets, we still occasionally hear from Dealers and Service Stations that they have had to report themselves "temporarily sold out on certain grades"—and this in spite of the fact that we have been producing Marvelube at a rate sufficient to fill a demand far in excess of our total Motor Oil sales for 1925.

The proved effect of Marvelube—in smoothness and economy of car operation—has so amply justified all the claims we made at the time of its introduction, that today we find the great body of Canadian Motorists not only using Marvelube, but actively encouraging their friends to enjoy the advantages of this greater lubricant.

Accepted at first "on faith" by motorists who realized we would not jeopardize our reputation by the slightest exaggeration of the actual facts, Marvelube is to-day dominating the oil trade of Canada by reason of actual results achieved in daily use in at least three hundred thousand crank-cases. There is no longer need for claim making. Marvelube now has a record of claim proving whereby even the ultra-sceptical must be convinced.

To complete the record of Marvelube's dramatic success, we now have on file official endorsements of this great oil discovery by the manufacturers of seventy-nine per cent. of the motor cars used in Canada. Marvelube, having been subjected by them to searching tests, has received unqualified endorsement as a Motor Oil of low carbon-content, low-cold test, infinitesimal sulphur content, unique resistance to emulsification and amazing ability to retain its "body" under the most severe operating conditions.

In thanking the manufacturers of motor cars who have so frankly endorsed Marvelube, and in expressing our appreciation to the public for their prompt acceptance of the new oil, we reiterate, for the benefit of those who have not yet tried it, the unqualified statement that Marvelube is different from and superior to any other lubricant that has heretofore been offered to the motoring public.

By securing the exclusive use of Peruvian Crude, we placed ourselves in possession of the most valuable raw material for the making of lubricating oil that has ever been wrested from the oil fields of the world.

By discovering and perfecting the Marvelube process of refining, we so enhanced the inherent properties of that great crude as to be able to offer an oil possessing new and distinct properties and revealing a superiority to any other lubricant hitherto produced.

There is only one Marvelube, and the benefit of its use can easily be proved to any motorist's satisfaction by filling his crank-case with the correct grade and observing the result.

E. D. Sullivan
